

# Lugano station.

The extensively renovated Lugano station is the most visited transport hub in Ticino. Close to the lake and the historic city centre, it offers areas for retail and restaurants in central location. Open 365 days a year, from early morning until late at night. With a tenant mix centred around our customers, our focus is also on regionality. Do you have an innovative idea for Lugano station or another SBB station? Or are you looking for office space? Then you've come to the right place.
